

WHO IS GLASS EXPANSION

- GE has been manufacturing sample introduction components since the early 1980s.
 - Today we support instruments from 16 manufacturers.
 - Provide sample introduction systems for over 50 different ICP and ICP-MS models.
 - GE products are standard parts for many ICP and ICP-MS manufacturers.
- High Quality GE in-house designs help you minimize variables that can affect your analyses.
 - Well thought out.
 - Meticulously designed.
 - Precisely manufactured.

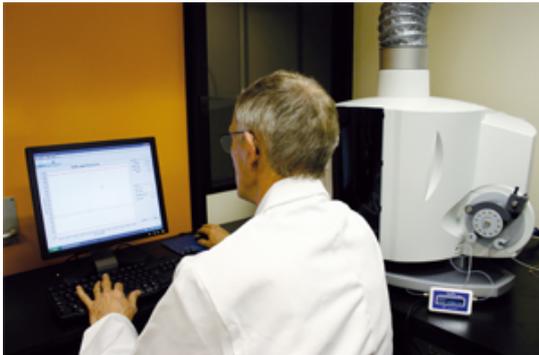

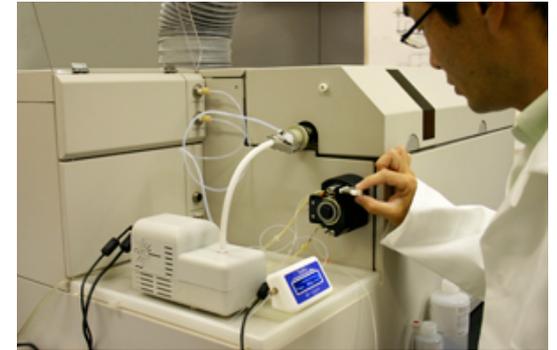

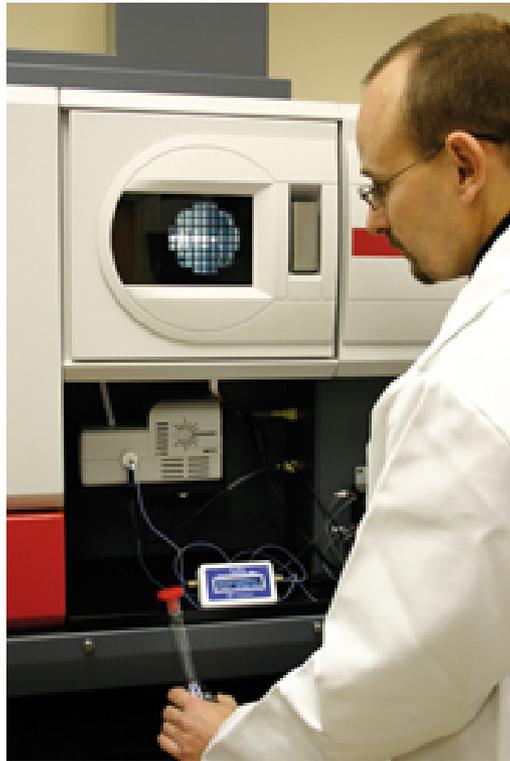

ICP/ICP-MS SAMPLE INTRODUCTION SYSTEMS

GE TECHNICAL SUPPORT LAB

- Experienced applications scientists.
- 4 in-house ICP spectrometers.
